voteQuestion: How do I keep the speed on the app at the lower speed? It keeps switching back to the higher speed!
Answer: Hi, thanks for your message. When you selected the speed you want to ride on, then you need to click the "limited speed" at the bottom, when it shows "setting successfully", and it could be fixed. Or you could directly adjust into kids mode, the speed would be in very slow. Hope this could be workable for you.By Gyroor SELLER on December 11, 2018

★★★★★ Great value, great experience so far

I did allot of research on hoverboards. What I found was every single one has a few reviews of people saying their's was defective or did nothing but beep. Basically I took a leap of faith guided by my 6 year old daughter's simple request for pink. I have now had this Gyroor for a week and I am very happy with the purchase thus far. First, my daughter loves it and was zipping around all over the place in no time. The lights are bright and colorful. The app is easy to pair and use. I put it in child mode and limited the speed in minutes. It can support 220lbs according to the manual which should make it big brother survivable. Battery life has been excellent and the charge time of 2-3 hours is quicker than I expected. So far my only nit-pick would be I think the cosmetics of the plastic body could be scratched up and gouged pretty easily. But it does feel like a solid piece of machinery. That it comes with a bag is really nice. At this point I feel like

★★★★★ Great quality

Reviewed in the United States on August 16, 2020

This is a very good quality and well made hoverboard. Right out of the box it was charged enough to test it and only thing I had to do is reset it once. It was difficult to get confidence to ride on it in the beginning but after an hour with practice my kids could ride it forward and backward and spin indoors. It self balanced which is great and if you go on high speed set in app then it beeps. Bluetooth connection is easy and speakers sound is awesome.

Charger has red and green light to know easily if it is charging. The bag also comes along with for carrying but it is heavy product for kids to carry. The lights on the wheels looks pretty in the night. I cannot comment too much on the battery life since we are pretty new at it but we charge is once a day and kids are using in indoors for good amount of time. That makes us all happy. I would recommend it to anyone.

★★★★★ Best Christmas present ever!!!

Bought this for my 11 yr old daughter for Christmas. She loves it. All her friends got one too and paid about the same price but hers is cooler than them all. The Bluetooth speaker works great and is very loud. She jumped on and became a pro in about 15 minutes.

★★★★☆ Battery is not so good!

Reviewed in the United States on April 15, 2019

Battery didn't last more than 30 minutes. Got the item replaced and had the same problem. The company was quick to resolve thing but only refunded to amazon account not to original payment method. I should also mention when it stops working or dies unexpectedly it comes to a complete stop. Making the rider go flying!

★★★★★ GREAT PRODUCT, GREAT PRICE, FAST SHIPPING!

Got this for my granddaughter for Christmas! After setting it up to her mother's phone, it took a couple of days and learning beside something to hold on to while getting the feel of things. (of course we had a few laughs at her dad's expense) She is now scooting around as well as she rides her bicycle. She is having a blast! The slower learning feature was perfect for her to use until she got the hang of riding it.
